

Welcome to Math Superstars 100% Virtual!!

The **England Elementary PTA** is delighted to continue the Math Superstars enrichment program again this year.

Math Superstars is a PTA-sponsored, optional enrichment program. Students in grades K-5 are welcome to participate.

The goal of this program is to help students develop problem solving skills, critical/creative thinking and to enhance and challenge the student's mathematical skills.

As a parent, your role is to encourage your child and facilitate problem solving. Feel free to suggest a strategy for solving the problem, but **please do not give the answers**. In order for this program to be effective, the thinking must be done by students. It is normal for a child not to be able to complete every problem on a worksheet.

The program begins in October and runs through March. Additionally, there will be rewards at the end of the program to the kids who complete all 20 worksheets.

Eligibility to Participate:

At Least one Parent/Guardian must be a PTA member. (If you haven't become a member yet please visit

[Join PTA](#)

to join the PTA now!)

How does the Math Superstars program work:

There will be no official enrollment form(**sign up**) this year.

The Math Superstars WORKSHEETS and ANSWER KEYS are available on the Elsa England PTA website under Program, Math Superstars.

[WORKSHEETS AND SUBMISSION DUE DATES](#)

Select and print out the worksheets that correspond to your child's grade level.

***Answer keys are only for reference**

Instructions for the worksheets:

- Students should write their first name, last name and their teacher's name at the top of the sheet clearly.
- It is recommended that students complete the assignments in order and submit completed worksheets **according to due dates**.
 - The 1st worksheet is due by October 7th, 2020. For future due dates, please refer:
[WORKSHEETS AND SUBMISSION DUE DATES](#)
- Completed Math Superstars worksheets to be uploaded through Google Forms.
 - [WORKSHEETS UPLOAD](#)
- Considering the current situation, grading will **not** be done by volunteers this year. The volunteers will check and track the completed worksheets.
- It is important to remind your child that he/she is not expected to know the answers or be able to complete every problem.
- Students who complete and turn in all 20 worksheets will be receiving rewards at the end of the program (drive through pickup) (March or April - TBD).

We are always looking for volunteers to share the task. Please let us know if you would like to volunteer: **eee.mathsuperstars@gmail.com**

(You will have to complete the volunteer registration from RRISD website before reaching us).

Please remember that the Math Superstars program is optional and it will not be part of your child's classroom instruction or grades.

Please do not contact your child's teacher for help with these worksheets.

If you have any questions, please contact **eee.mathsuperstars@gmail.com**

Thank you for allowing your child to participate in this exciting math adventure!
