

# ☆☆☆☆ MATH SUPERSTARS ☆☆☆☆

The **England PTA** is delighted to continue the Math Superstars enrichment program again this year.

- It is a **completely optional** program for all students attending Kindergarten through Fifth grade.
- The goal of this program is to **enhance the student's knowledge of Math**. The program is great for encouraging parent/child teamwork, practicing math skills and learning to approach problem-solving situations.
- The program begins in **October** and offers prizes and incentives for completed worksheets. Additionally, there will be an end of the year fun treat for reaching the finish line!!!
- Math Superstars has a special bulletin board, located close to the art room, to show off our participant's achievements. All participating students will have his/ her name on a shiny star and receive stickers for every five completed worksheets.

**Eligibility to Participate:** At least one parent is PTA member.  
(Become a member today!! "Back the future" )

## Math Superstars Process

If your child chooses to participate in the program:

- Worksheets are available on the Elsa England PTA website under Program Tab ( under "Math Superstars Worksheets." )
- Please print the worksheet according to the grade level at home. (**Back to Back print is great!**) Kids should write their name on the sheets clearly.
- Return the completed worksheet in the Math Superstar folder outside his or her classroom.
- Each worksheet is assigned a due date and we encourage kids to follow it.
- The worksheets are graded by **parent volunteers** so we kindly ask your child to turn **no more than two sheets** at a time so as to not overload the graders.

**Please mention your PTA member name on the first submitted worksheet.**

Please remember that the program is optional and it will **not** be part of your child's classroom instruction or grades.

If you have any questions, please contact [mathsuperstars.english@gmail.com](mailto:mathsuperstars.english@gmail.com)

Thank you for allowing your child to participate in this exciting math adventure!
